

CARPAL TUNNEL SYNDROME

Struggling with wrist pain, tingling
or numbness?

Carpal Tunnel Syndrome (CTS) commonly affects individuals who perform repetitive hand movements such as use of computer and phone include household work. Diabetic patients have a higher risk of developing CTS.

CONSULT OUR HAND SURGEONS IF YOU EXPERIENCE THESE SYMPTOMS:

Burning, tingling, and
numbness in the wrist
and hands

Pain in the wrist or hands,
especially at night

Weak grip strength

Clumsiness in hands and
fingers

Difficulty performing precise
movements
